Positive Momentum Building at Techne Center

Since Covid-19 came on the scene and ‘work from home’ became commonplace, the commercial real estate market has faced challenges. The Township has seen its share of buildings sit empty, only to be compounded by an oversaturated market and new norms of employee/business relationships. But, the purchase of the property at 1700 Edison Drive by the rapidly growing company TQL has set in motion a course of positive momentum at Techne Center.

1701 Edison Drive was the original location of TQL’s headquarters when the young company was incubating. TQL, in fact, has never left and - with the purchase of the building at 1700 next door, they now own three buildings in Miami Township with close to 400 employees (there are 200 employees at their location on Allen Drive).

There are no immediate plans in place for the property. In the next year or two, as TQL wraps up projects in other communities, they will turn their attention back to the Edison Drive location. Miami Township is excited to have TQL in the community for another generation - or more, and we look forward to seeing what they will bring to Techne Center.

A neighboring property at 200 Techne Center Drive has recently been demolished. In terms of positive momentum - this is addition by subtraction. The structure was 42 years old and had been empty for years. The building was one of 13 purchased a year and half ago by a new group of owners. Office space is plentiful around the country, but there is a demand; and at Techne Center that demand is high. This is momentum because the owners are going to have plans in the future to do something new at the site.

While there is a lot of empty office space around all communities, it’s the wrong kind of space. Many of the empty buildings are two or three generations old, they are not modern in their technology or what modern office spaces require, and they don’t provide the experience new employees are wanting. We are very pleased the new owners are showing momentum and we believe the public will continue to see this trend. Miami Township is excited for what the future brings and for the investment in our community!

Join Us for Community Conversations

EASTSIDE CHRISTIAN CHURCH: September 28 • 6:30-7:30 PM

Join friends, co-workers, and neighbors for an honest conversation about race, policing, community, and relationships in Miami Township. Resident Achmed Beighle will sit down with Miami Township Police Chief, Mike Mills for a candid, one on one conversation. The floor will then be opened up to participants to answer questions and address concerns.

The goal is to keep conversations going. The best way to get past our misconceptions, unknowns, or fears is to talk to each other and keep the dialogue going. We hope you’ll join us! If you would like to be part of the conversation or just attend, please RSVP at *MiamiTwpOH*.

What to do After a Traffic Crash?

Officer Shane Thompson

You've been in a traffic crash, now what?

Anytime you are in a crash, it is a stressful time. Here are the things you should do if you are involved in a traffic crash.

First and foremost is safety! Make sure you and the occupants of the other vehicle are not injured. Be careful when outside the vehicle while in the roadway. If someone is injured, call 911 immediately.

Second, call the police for a report. You may not know what the local non-emergency number, don't worry, just call 911. Explain to the dispatcher that you were involved in a traffic crash. The dispatcher will ask you a series of questions and send an officer. If you'd like, add the non-emergency dispatch number to your contacts list so that you have it whenever you need it! 513-732-2231.

Next, if no one is injured and the damage is minor, move the vehicles to the side of the roadway or into a parking lot. In case they do decide to leave, make sure to note the license plate of the other vehicle involved prior to moving the vehicles. That will help identify them later, if needed.

If it is safe take some pictures, do so. However, if it is not safe, wait until the officer arrives. This is especially important on very busy roadways or highways.

If your car is disabled and cannot be moved, do not sit in it. Go to the side of the road, preferably get behind a guardrail or 10 to 15 feet from the edge of the road. Secondary crashes do happen!

The most important piece of advice is to file a crash report at the time of the crash. It can be very difficult to report a traffic crash after the fact. Witnesses are often no longer available, and it can be hard to determine who is at fault.

If you agree to exchange information at the time of the crash and not file a police report, you and the other driver need to respond to the police station together at a later time. Again, it's highly recommended to file a report at the time of the crash.

New Roles & Personnel

Like most other organizations these days, Miami Township Fire & EMS is continually growing and adapting to the needs of our department and community. We are affectionately referring to these changes as "Miami Township Fire & EMS 3.0". The first significant change for our department came in the early 1990's when various public and private fire and EMS agencies in the area were merged to form Miami Township Fire & EMS.

Version 2.0 came with the change of leadership of the department from retiring Chief James Whitworth to Chief Steve Kelly in 2013. Version 3.0 is the next generation of fire and EMS professionals achieving new roles and responsibilities within our department. We have a lot of new faces joining our family, and with that growth comes the opportunity to make some adjustments to ensure we are meeting the needs of our employees and our residents. Please join us in welcoming and congratulating the following members of our department:

Jon McKinnish

Deputy Chief of Administration

Joe Stoffolano

Division Chief of Community Risk Reduction

Bob Foppe

Battalion Chief

Ross Pawlak

Watch out for School Buses and School Speed Zones!

Corporal Jimmy Taylor

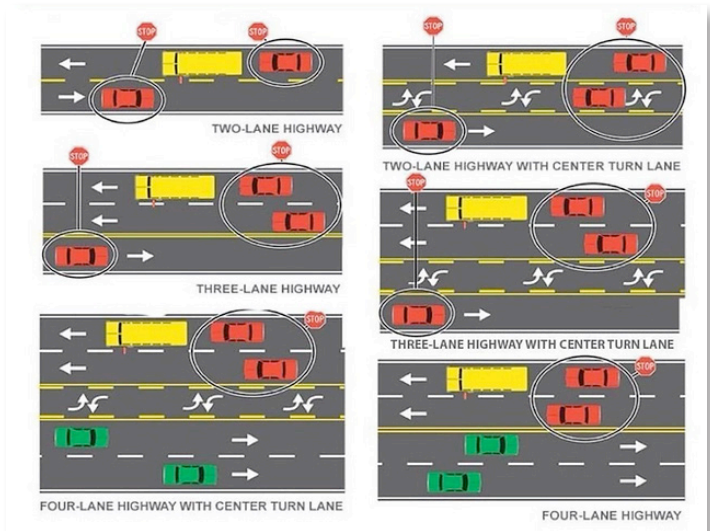

Since summer is over and school is back in session, now is a perfect time to review school bus and school zone safety. There are many laws in the State of Ohio that help ensure our students are safe as they travel to and from school.

One question police officers often hear in regards to school bus safety is, when is it ok, if ever, to pass a stopped school bus. Ohio Revised

Code 4511.75 clarifies this issue and is summarized by the graphic to the right.

It is also illegal to pass a stopped school bus on a private roadway – such as the road in an apartment complex.

It is important to note that Ohio Revised Code 4511.751 allows a police officer to take enforcement action based on a bus driver's observations, granted they are able to provide a license plate, as well as accurate vehicle and driver description.

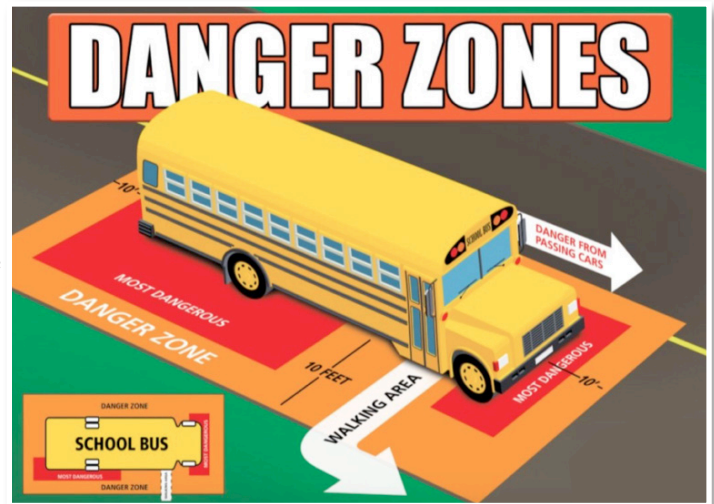

Statistics show that most traffic accidents involving school bus riders occur within 10 feet – in all directions – of the school bus. These areas are known as the danger zones, which is summarized by the below graphic:

Drivers should always use extreme caution near school buses – especially near the danger zones.

Drivers must also be aware that the speed limit for every school zone in Ohio is 20 MPH unless noted to be lower. The school speed zone is in effect as students arrive and depart the school day, as well as during recess hours. While most school zones are equipped with signs and flashing lights, a sign is all that is required.

A few additional ideas to consider with school back in session:

- Drivers should plan to leave a few minutes earlier than normal. Increased traffic and busses making multiple stops will increase your travel time.
- Slow down and be alert, especially when driving through neighborhoods. Drivers should be vigilant when school buses are present due to the likelihood of children walking near the roadway.

The Officers of Miami Township Police Department take the safety of our students very seriously whether they are in the classroom, out in the community, or when they are on the roadways getting to and from school. We wish all our students a great 2023-2024 school year!

Wow, where did the time go? As we prepare to turn the page on another Summer here in Miami Township, let's reflect on the

extremely enriching last few months. Summer Camps were as hot as ever, with most being at full capacity. Camps brought in more than 600 registrants over the course of the summer months and provided countless memories and experiences for campers and staff! From science experiments, learning magic and fishing to canoeing, go-kart racing and indoor skydiving, our campers made the most of their summer break! Now we move on....

As the leaves change color and temperatures drop you can bet that Miami Township Recreation will keep you busy with a wide variety of activities and events. As you flip the pages, you will discover many of your traditional favorites and hopefully some new offerings that pique your interest. We will kick the new season off with a fan favorite, the Harvest Festival & Community Bonfire at Community Park on Saturday, October 14th. We are excited to expand the hours of this FREE family favorite to 6-9:00 p.m. Then find your spot along Business 28 so you don't miss the Miami Township Holiday Parade on Thursday, November 16th, followed closely by Holiday Hoopla and Tree Lighting at the Civic Center on Saturday, December 2nd. I could go on and on, but that would take all the fun out of flipping each page and discovering what awaits you this Fall and Winter!

Thank you all for continuing to choose Miami Township Recreation as your go to for recreational fun and entertainment. So, here's to a great rest of 2023 and an even better year in 2024!

"Change is inevitable during the seasons, but it can also bring about great new opportunities." - Anonymous

**STICKING TO YOUR
NEW YEAR'S RESOLUTION:**

Staying Focused in the New Year

Tuesday, JAN 23, 6:00-7:00 pm; **MTCC**

\$5 (Person)

Master's level mental health professional, Will Cates MS, LPC, will talk with you about goal setting, staying focused, building discipline, and how to remain dedicated to your goals in the new year. Too often we allow our goals and resolutions to fall by the wayside. Why is that, and how can we stay on track to be the versions of ourselves that we wish to be? Learn more at this personal development session in the new year! The views and opinions of Will Cates do not necessarily state or reflect those of Miami Township.

BATTLING THE WINTER BLUES

Tuesday, FEB 6, 6:00-7:00 pm; **MTCC**

Winter takes a toll on us all, but for some it is particularly challenging. The bitter cold, shorter and darker days, and limitations in mobility that come with winter weather are all contributing factors to depression-like symptoms, or in some cases, traditional Seasonal Affective Disorder. Learn from master's level mental health professional, Will Cates MS, LPC, about ways in which you can successfully make it through the deepest and most difficult part of winter. The views and opinions of Will Cates do not necessarily state or reflect those of Miami Township.

"SPRING" TO LIFE:

Self-Care and the Mind-Body Connection

Tuesday, MAR 19; 6:00-7:00 pm, **MTCC**

\$5 (Person)

Master's level mental health professional, Will Cates MS, LPC reviews what research in psychophysiology has taught us about the mind-body connection. Learn how self-care with an emphasis on the mind-body connection can lead to improved mental and emotional wellbeing at this personal development session. Modern Day House Fires

Chief Steve Kelly

Fire prevention is a big topic in our schools every October during Fire Prevention Month. Students come home with fun activities and fresh ideas about making their homes safe and protecting their families. We love the opportunity to make a positive impression on the young minds in our community and to help focus their thoughts on fire prevention and safety.

There are a few things that none of us have control over, but that are important to focus on when talking about home safety. First, the size of your house matters. More square footage means that fires can go undetected longer and grow more quickly. Homes today are 50% larger than they were just 50 years ago. Additionally, if you have a newer home (built in the last 10-15 years), the construction materials used in your house are much different than those that were used from the 1950's through the 1990's.

There are a lot more plastic-based and synthetic materials used to build and furnish your house today, which contribute to a fire's spread. These synthetic materials give off a lot more toxic smoke that can bank down quickly and overcome anyone inside at the time of the fire.

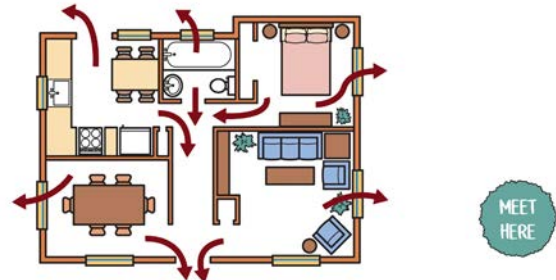

In a newer constructed home (2000's to present), **residents have an average of three minutes to escape from a house fire.** This is important to know because it illustrates the importance of not staying inside to rescue pets, collect valuables, or trying to extinguish the fire if it is already too large to control. Calling 9-1-1 early is the best thing you can teach your family, so Fire & EMS professionals can respond quickly for assistance.

As always, please call us at 513-248-3700 if you have any questions or need assistance with any emergency planning for your family.

- **MAKE** a home escape plan. Draw a map of your home showing all doors and windows. Discuss the plan with everyone in your home.
- **KNOW** at least two ways out of every room, if possible. Make sure all doors and window leading outside open easily.
- **HAVE** an outside meeting place (like a tree, light pole or mailbox) a safe distance from the home where everyone should meet.
- **PRACTICE** your home fire drill at night and during the day with everyone in your home, twice a year.
- **PRACTICE** using different ways out.
- **TEACH** children how to escape on their own in case you can't help them.
- **CLOSE** doors behind you as you leave.

IF THE ALARM SOUNDS...

- If the smoke alarm sounds, **GET OUT AND STAY OUT.** Never go back inside for people or pets.
- If you have to escape through smoke, **GET LOW AND GO** under the smoke to your way out.
- **CALL** the fire department from outside your home.

- ⚠️ A closed door may slow the spread of smoke, heat, and fire. Install smoke alarms inside every sleeping room and outside each separate sleeping area. Install alarms on every level of the home. Smoke alarms should be interconnected. When one smoke alarm sounds, they all sound.
- ⚠️ According to an NFPA survey, only **one of every three** American households have actually developed and practiced a home fire escape plan.
- ⚠️ While **71%** of Americans have an escape plan in case of a fire, only **47%** of those have practiced it.
- ⚠️ **One-third** of American households who made an estimate thought they would have at least 6 minutes before a fire in their home would become life-threatening. The time available is often less. And only **8%** said their first thought on hearing a smoke alarm would be to get out!

COMMUNITY DEVELOPMENT

New Developments in Miami Township

Brian Elliff
Planning & Zoning Administrator

You may have noticed some new development occurring around Miami Township. Here's an update on what is going on.

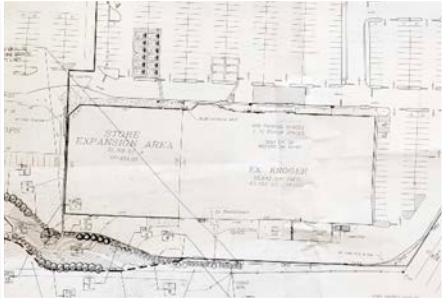

OPTIMA DERMATOLOGY FRAMED UP, SIDING NEXT

The Optima Dermatology building at the highly visible State Route 28 and Business 28 split is fully framed up and enclosed. We are looking forward to that important medical facility to open soon.

MILFORD MIDDLE SCHOOL STARTING NOW

The Community Development Office recently completed site plan review for the new Milford Middle School Building and campus. Initially we will see demolition of a few buildings (already occurring), to be followed up with the first phase construction which will consist of a Field House building containing locker rooms, concessions and gym space among other things in the new 32,500 square foot space. The Field House will also serve as the gateway into the Milford football stadium. Later stage work will include new parking areas, practice fields and improvements to the stadium. Lastly, the new middle school will be constructed, anticipated to begin construction in 2025.

KROGER EXPANSION ON TRACK

The site plan and zoning certificate have been approved for a 32,768 square foot expansion of the Mulberry Square Shopping Center Kroger store. This expansion has been in the works for several years and construction is now happening. The plans are for a Kroger Market Place including a new drive thru pharmacy and improved pickup parking. The Kroger re-investment has spurred at least one new tenant to locate to the center, Crumbl Cookie.

ALDI + ACCESS IMPROVEMENTS UNDER CONSTRUCTION

After several site iterations and development challenges, Aldi is now officially under construction. It will be located on State Route 28 opposite Kohls. Through extra planning by Miami Township, a new entry way into the adjoining Al Gore Acres Subdivision is being planned as part of the development. This will allow residents there to not only easily access Aldi, but also to avoid the challenging entrance to that subdivision off of State Route 28. They will now be able to safely enter the roadway via the light controlled access point serving Aldi.

TIRE DISCOUNTERS/CARRIAGE CARWASH GRADING ONGOING

Also in the Kohls vicinity, directly east on State Route 28, substantial grading is underway for a proposed Carriage Car Wash and new Tire Discounters. The property is already owned by Tire Discounters, which also now owns the Carriage Carwash brand.

Here Come the Leaves

John Musselman
 Service Director

With fall quickly approaching, leaves will soon be on the ground. Residents can play an important role in maintaining proper stormwater runoff by minimizing obstructions. Please do not place leaves or grass clippings in or near ditches, storm drains, culvert pipes, or the street. When stormwater cannot drain properly, flooding and

road damage can occur. Please do not burn leaves. The Township does not offer curbside leaf pickup. Residents can dispose of leaves either by composting them or by obtaining brush vouchers at the Miami Township Service Department, Civic Center, or Police Department Monday through Friday 8:00 AM – 4:00 PM. The vouchers allow residents to drop off biodegradable yard waste at Bzak Landscaping, which is located at 931 Round Bottom Road.

Proof of Miami Township residency is required to obtain the free brush vouchers. Each voucher is valid for one load. Please make sure to follow guidelines printed on the back side of the vouchers.

2023 Paving Wrap Up

The Miami Township paving program has wrapped up for 2023. We are proud to report the Township was able to pave 11.9 miles of road. Thank you to our residents for their patience!
