Mr. Wright advised Finance Director Kelly Flanigan is requesting approval to attend the annual Ohio Government Finance Officers Association that is held in Columbus from September 18 – 20, 2019. This conference is typically attended by township, village and city finance officers.

Mr. Wright presented an updated personnel policy and procedures manual noting it had been five years since its last revision. There were housekeeping items and updates to state and federal requirements. It was also an opportunity to review best management practices, including cost-neutral options, with many new members on the leadership team to ensure the Township attracts high quality candidates.

Mr. Wright summarized the larger changes as follows: replace Columbus Day with Veterans Day; transition vacation accrual language to match collective bargaining agreements; provide access to 40 hours of vacation time earned to full-time employees who complete six months of employment with a stellar evaluation; clarify allowable reimbursement expenses and to align per diem with the General Service Administration Standards; updates to the credit card policy; and the option for non-union members to convert overtime hours worked to compensatory time up to 40 hours that must be utilized within one year. He advised that upon approval by the Board the updated policy will be distributed to all employees.

Mr. Wright advised that Chief Kelly has his department personnel maintain a certain standard fitness for duty and toward that goal is a multi-year plan of replacement of equipment. In the 2019 budget, one existing piece of equipment for replacement is a fitness solutions item called a Stairmaster Gauntlet. Mr. Wright advised that the records management system is another proposal that Chief Kelly and staff have worked on. The software is used for every run and last year there were 5,200 runs for the year. Unfortunately, the prior vendor has abandoned the software platform which has necessitated a search with other vendors. The 2019 budget included software and the contract brought forward does show the best RMS replacement would be from a company called Image Trend at a cost for the current year not to exceed \$15,000 and there will be a process for building the platform.

Mr. Wright advised that he and Mr. Musselman have worked on Ohio Public Works Commission grant applications, as the Board is aware, which require authority by resolution for the application. He stated that there have been new slides in the Township with the record rainfalls in June, and with some roads located next to the community creeks, slippage of several roads has occurred. The two grant applications for August include Redbird and Happy Hollow Roads. Due to the single ingress and egress these are considered emergencies in the Township's opinion. Local funds would include a match by the Township in the competitive grant process with projects submitted from Butler, Clinton and Warren counties. He explained that with the gasoline tax there will be a new funding source for the local match. If successful in the grant funding the projects would begin in July 2020.

Mr. Tracy made a motion to adopt Resolution 2019-23 Authorizing the Township Administrator to Prepare and Submit an Application to Participate in the Ohio Public Works Commission State Capital Improvement Program and to Execute Contracts as Required, Dispensing with the second Reading, seconded by Mr. Schultz with all voting "AYE".

Mr. Wright advised the purchase of a mini excavator was originally brought to the Board in May and was planned in the 2019 capital budget. The hydraulics, after 15 years, are not functioning well. As the Board requested in May, Mr. Musselman has obtained from a vendor to discern the specific cost of the necessary repairs to the existing mini excavator which was approximately \$15,000 of immediate repairs. He stated the proposal is to utilize the trade-in value of the mini excavator with Bobcat Enterprises toward the cost of a replacement which would total \$32,113.18.

Mr. Tracy made a motion to approve the purchase of an E35 ZTS compact excavator from Bobcat Enterprises of Cincinnati for \$32,113.18, seconded by Mr. Schultz with all voting "AYE".

Mr. Wright advised that the integrity and preservation of the Leming House is important to the Township. He reiterated as Mr. Musselman reported there are numerous problems and varied types of issues requiring a variety of contractors to make repairs. Multiple meetings have been held with different contracting and engineering firms, and items that need work include HVAC, brick tuck-pointing, masonry failure, plaster decomposition on the interior, stone foundation issues, water issues, floor joist issues. The specific dollar amount of repairs cannot be obtained until intelligence is gained through opening up certain areas of the building.

Mr. Wright further advised that Townships in Ohio can procure service and labor by participating in a joint purchasing program for design-build projects. It is being proposed that the Board authorize a letter of commitment with Prodigy to perform the reconnaissance items to find out the work that needs to be completed. The next step would be to enter into a separate agreement with Prodigy as a turn-key operation for the design and general contracting services.
